**1. Welcome & Introductions**

**2. Debate**

**What language is the best in the world?**

**3. Matters Arising**

The young people have been informed on who won the poster competition and will be given the voucher in the next two weeks.

YCH are in the process of hiring out a building so may be able to meet inside.

**4. The Coming Term/Environment Project**

The young people have taken photos of the areas of interest. Adesola went to pound close and found that the open field had loads of litter and there was only two bins in certain corners of the park.

However the youth council think that the main reason these are not being used is because of laziness.

Broxbourne Youth Council have thought of the idea of putting a poster up in Tesco or on the path ways of the park to deter people from littering in the park for now.

We could also do a series of litter picks and then create a piece of art work from that and put it on display.

Ethan to do a doodle poll to find out whether the youth council members will be able to attend the litter picks in June. If all goes to plan we will see if other people want to join in the litter pick through posters.

**5. AOB**

Recruitment for new youth council members- would be good to open this up some more and get some new people in. Ask in BASH

We can use this new project for promotional material and take photos as the ones we use now are old and do not have current new members in.

Ask Pierce if he would like to do a meeting after winning for his constituency in Broxbourne as it is a success story.
