1st August 2022

Dear Madam

Town and Country Planning Act 1990 - Fairmead

I am in receipt of your communications dated 27th June and 11th July in respect of this proposed development.

I can only reiterate the problems I have outlined in my letter dated 9th September 2021.

Goffs Oak is no longer a village location and new builds are taking place everywhere in the area, and with the roadworks this entails, enough is enough.

We are being swamped with new properties here, there and everywhere, and left with virtually no green belt.

Traffic on Guffley Hill/Goffs Lane will increase as most new households will have at least one or two vehicles.

Doctors surgeries are already over subscribed, not to mention schools, so all in all this proposal needs to be refused

Yours faithfully

E. Ball
