

**Subject:** 07/19/0200/F -Rejection

Good Morning

Please find this email as a rejection to the proposed plans on Fairmead 90 Cuffley Hill Goffs Oak, Hertfordshire EN7 5EX.

There traffic in Cuffley/Goffs Oak is already at gridlock. There is one road in and one road out of Cuffley. We have houses popping up everywhere, Goffs hill is starting building works as well as proposed housing down by Cuffley school. How are we going to get in and out of Cuffley?

58 dwellings means a minimum of 58 more cars on our already squeezed roads.

Cuffley hill is dangerous as it is with cars speeding up and down at silly speeds. Adding more turn offs and hazards for our pedestrians and children seems a crime.

There isnt the supporting infrastructure for all these houses... how can these be being passed?

Schools are already over subscribed, roads are already at gridlock... why does every beautiful green space have to be filled?

Cuffley and Goffs oak is hugely losing its original appeal for green space.

Please advise if this is not the correct email address and where i need to forward my rejection to.

Regards

Lisa Pooutides

The Chase. Goffs Oak.
