**Subject:** Erection of 58 dwellings with associated infrastructure Fairmead 90 Cuffley Hill Goffs Oak EN75EX (order 2010)

Kenneth Travers. 96 Cuffley Hill. Goffs Oak EN75EX tel. 01707874895.

Dear sir I want to make the strongest possible opposition to any permission being given to the above request (order2010) as above.

The land in question is important wildlife area and one of the few left in Goffs Oak. I know this as a keen ornithologist and naturalist who has kept records of bird sighting that are resident and the migrant birds that use this site on a regular basis since

I have lived overlooking it since 1975.

Secondly, Cuffley Hill and its continuation Goffs Lane . (both part of the B156.) which is regularly at a standstill with traffic will be made much worse with the big increase of vehicles that will be trying to access it, this will result in an even worse bus service than the already very poor service that we currently have. As an 83 year old man who as the result of a stroke, can no longer drive, I could end up marooned without a decent bus service. I do not want to be forced to move house at this age. It is so important that we as much as possible as directed by central government . Please, please reject this latest attempt to destroy the land behind me before we just become another piece of urban sprawl slowly connecting us to Greater London.

Mr. Kenneth A . Travers.
