96 cuffley hill.  
goffs oak.**

I am totally opposed to any building development of the Fairmead site being permitted as it would destroy probably the most important wildlife habitat in Goffs Oak, at a time when Government states that we should be preserving these areas for the benefit of the environment. This site is an important corridor to broxbourne woods, and is in its self home to many species of birds and mammals. I am a resident, whose property overlooks the site and keeps records of all the birds visiting the site. Goffs Oak is being developed at an impossible rate given that the road I live on (Cuffley Hill.) is regularly at a standstill and will not cope (as you know.)

We are all being warned by eminent scientists that we must start preserving natural woodland not destroying it so please leave it as it is.
