As a resident of Goffs Oak I would like to know what the planning authority is putting in place with regards to a section 106 agreement with the planning applicant / developer?  
This development has a direct impact on local residents additional traffic, noise, pollution, adverse impact on local amenities doctors, post office, schools etc. How does this development address these issues. As it currently stands it doesn't. Goffs Oak has become like a giant buiding site with literally housing developments springing up everywhere! This is certainly not the same place that I moved to 13 years ago. This development has a considerable impact on the biodiversity and wildlife in the local area which is not sufficiently mitigated by the current proposals presented by the applicant. It is clear that those approving these large housing developments are not Goffs Oak residents otherwise you would know what we are going through on a regular basis. For the reasons outlined above I therefore oppose this development.
