102 Cuffley Hill

Goffs Oak

Herts EN7 5EY

I am totally against this planning on Cuffley Hill.

As a resident for the last 17 years moving here from Enfield wanting a better environment and schools for our daughter, I am appalled that the amount of development is taking place within Goffs Oak.

The infrastructure will not support this, we are unable to get an appointment within a reasonable time scale with doctors as it is. Cuffley Hill is already to its full capacity during school run times and around working hours. If there is a problem on the M25 everything comes through Cheshunt/Goffs Oak/Cuffley and it comes to a standstill. I can sometimes take me over half an hour to get from my house to the other end of Cuffley village.

We have had to put up with total disruption for the last two years from the building of Edwards Gate (old C. Edwards Site) and understand that this is not due to be completed until May 2022 so to have another site start up along the road is unacceptable.

The wildlife on the land behind Fairmeads will be displaced, where will they go? Badgers, Munch Jack Deer, Kites to name but a few, it has been a pleasure for my daughter to be able to see these animals while she was growing up. Children from inner cities do not have this luxury and you are now taking that away from others children in the area.

I object to this proposal very strongly and request that planning rethink. Surely there is enough properties being built on other sites within Goffs Oak without disturbing the wild life behind Fairmead.

If this development does go ahead I hope the Council will be stringent with the laws and

regulations concerning the trees and copse' that are on this sight and make sure that preservation orders are adhered to and no "accidental" knocking down of trees.

Regards
