Dear sirs

I moved to Goffs Oak in 1964, 58 years ago to a small village of less than 300 houses, since then we have never been without a building site, I used to have a small forest behind my house I now have 2 housing estates, when this current invasion of builders has finished I am reliably informed we will have 8,800 houses, our infrastructure is on the point of collapse, it is already impossible to get a doctors appointment which means the A&E and urgent care section are being overwhelmed (we have to share our doctors with Cuffley an even bigger village than us due to excessive building) our hospitals and ambulance service and Police are not coping, our fire brigade is not able to manage as they are part time, we are suffering major traffic problems, the utilities are not coping well and this is before the new estates of 2000 houses are occupied.

Please ensure that these problems are not made worse by allowing more house to add to our problems because life here is being made very difficult if not dangerous,

Yours faithfully

Ron Gibbs
