## Financial Performance for 2023/24

The 2023/24 statement of accounts has been prepared in accordance with the requirements of the CIPFA Local Authority Code of Practice (The Code).

As highlighted above, despite the challenges of the last year, the financial position of the Council continues to be robust. The budget was set at £12.6m and in overall terms, the Council achieved a surplus during the year of £0.9m. This surplus has been transferred to the Broxbourne Sport and Leisure and Culture reserve, Personnel reserve and Brookfield reserve, increasing the balances to £1.9m, £0.4m and £8.2m respectively. This will provide a financial safety net for the leisure sites as they continue their recovery.

	2023/24 Revised Budget	Actual as at 31 March 2024	(Under)/Over Spend
	£	£	£
Cost of Services (General Fund)	12,646,866	16,895,624	4,248,758
The Leisure Centres (Trading Position)			13,887
Cheshunt Park Golf Centre (Trading Position)			115,437
The Spotlight (Trading Position)			482,164
<b>Combined Overall Position</b>			<b>4,860,246</b>
Covid-19 Grant Received			
Local Taxation Income Compensation			
Removal of Capital Variance that do not affect net operating expenditure			(3,965,603)
<b>Net Position after Grant Receipt and Income Compensation</b>			<b>894,643</b>
Transfer to Broxbourne Sport and Broxbourne Leisure and Culture Reserve			(611,488)
Contribution to Personnel Reserve			(250,000)
Contribution to Brookfield Reserve			(33,155)
<b>Final Outturn Position</b>			<b>0</b>

# Narrative Report to the Statement of Accounts

## Corporate Risks

### Risk description

Local employment, skills and business opportunities are not maximised through the growth and development presently underway in the borough.

Loss of personal / business data through negligence or hacking.

Business Continuity (BC): If the Council does not have adequate BC arrangements in place then significant service disruption may ensue in the event of a significant incident. In particular the risk of a Cyber Security event causing significant financial, operational and reputational damage.

Financial Resilience: Inflationary pressures impacting on cost of, and demand for, Council services; Increased cost of projects and fall in revenues.

Loss of expertise due to inability to retain staff and recruit suitable placements.

### Mitigation

The Council is working with developers, stakeholders and other partners to deliver the employment and skills strategy.

The Council has designated and resourced Data Protection Officer and Senior Information Risk Officer roles. A suite of data protection policies and procedures have been adopted. An Information Asset Register and Register of Processing Activities have been established. Training has been provided to staff and Councillors. A system of data breach and subject access request monitoring has been introduced. IT systems and cyber security arrangements are in place.

A Corporate BC Plan (BCP) has been adopted which is underpinned by departmental arrangements. The BCP supports the resilience of critical services in respect of staff shortages from pandemic related disruption. System protections are in place to minimise a Cyber attack risk. Strategies are in place to minimise the impact should a Cyber threat occur.

The Council addresses these risks through the Medium Term Financial Plan, the Treasury, Investment and Capital Strategies, financial reserves, the evaluation of proposed capital schemes, through budgetary controls and monitoring and by credit checks and financial monitoring.

A mentor and staff benefits scheme are in place. Communication is maintained through the Staff Forum. The appraisal review mechanism has been introduced. Staff training and educational support programmes are established. Service resilience is enhanced by shared services / joint working programmes, the use of agency staff where available and the recruitment programme with succession planning.

**Sandra Beck FCCA**

Director of Finance

## Explanation of the Financial Statements

The Accounts and Audit Regulations 2015 require the Council to produce a Statement of Accounts for each financial year. The accounts for the year ending 31 March 2023 are set out on pages 12 to 79 of this document and consist of a number of statements. Much of the information in the document is of a technical nature and has been completed to be compliant with the 2022/23 CIPFA Local Authority Accounting Code of Practice (The Code) and Service Reporting Code of Practice (SeRCOP). The statement of accounting policies explains the policies adopted by the Council to complete these accounts.

### Statements to the Accounts

The Statement of Responsibilities for the Statement of Accounts identifies the officer who is responsible for the proper administration of the Council's financial affairs. The Certificate of the Chief Finance Officer is the Director of Finance's statement that confirms the validity of the information presented in the accounts.

### Core Financial Statements

The **Movement in Reserves Statement** shows the movement in the reserves held by the Council analysed into 'usable reserves' (i.e. those that can be used to fund expenditure) and other 'unusable' reserves. Total reserves at 31 March 2023 were £215.3 million compared with £180.4 million at 31 March 2022. The Movement in Reserves Statement reconciles the £2.4 million surplus on the Comprehensive Income and Expenditure Statement to the movement in the General Fund balance and its accompanying note (note five) provides a breakdown of the adjustments between the accounting basis and funding basis under regulations. These include reversals of depreciation and the adjustments made to comply with International Accounting Standard 19 (employee benefits), entries relating to the financing of capital expenditure from revenue and vice versa, gains on the revaluations of non current assets and actuarial gains and losses on the pension fund.

The **Comprehensive Income and Expenditure Statement** is the primary statement illustrating performance. It summarises the income receivable and expenditure incurred in operating the Council for the year. The statement shows a surplus for 2022/23 of £2.4 million which represents the amount by which expenditure exceeds income. The statement is prepared in accordance generally accepted accounting practices, rather than the amount to be funded from taxation. Income and expenditure is analysed in note three based on the reporting structures that the Council uses for decision making.

The **Balance Sheet** summarises the Council's assets, liabilities and reserves. At 31 March 2023, the Council's net worth was £215.3 million. Other notes provide analysis of various categories of income and expenditure and the additional information that the Council is required to disclose, such as details of capital expenditure and sources of finance, officers' remuneration and information on pensions.

The **Cash Flow Statement** summarises, in cash terms, the Council's transactions with its taxpayers, its customers, its suppliers, the Government and other parties. There are no significant provisions or contingencies included in the Statement of Accounts as at 31 March 23 and there were no material write offs during the year.

The **notes to the accounts** provide support to the core statements to aid understanding.

Note one, the **Expenditure and Funding Analysis**, shows how the Council's annual expenditure is allocated for decision making purposes between the Council's departments and how this expenditure is split between that which is funded from General Fund resources (eg: council tax, business rates, rents and fees and charges) and that which is as a result of accounting practices. The analysis ties back the £2.4 million increase in reserves shown in the Movement in Reserves Statement and the £2.4 million surplus on the provision of services shown in the Comprehensive Income and Expenditure Statement.

### Supplementary Statements

As well as collecting its own tax, the Council collects Business Rates on behalf of the Government and Hertfordshire County Council and council tax on behalf of Hertfordshire County Council and the Police and Crime Commissioner (as precepts on the council tax). All of this activity is summarised in the Collection Fund Account which is detailed on page 68.

The **report of the auditors** provides an opinion as to whether the accounts present a true and fair view of the Council's financial position.

The Statement of Accounts concludes with a glossary of financial terms, designed to assist the reader in understanding the information presented.

## Statement of Responsibilities for the Statement of Accounts

### The Council's Responsibilities

The Council is required to:

- make arrangements for the proper administration of its financial affairs and to ensure that one of its officers has the responsibility for the administration of those affairs. In this Council, that officer is the Director of Finance;
- manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets;
- approve the statement of accounts.

### The Chief Finance Officer's Responsibilities

The Chief Finance Officer is responsible for the preparation of the Council's Statement of Accounts in accordance with proper practices as set out in CIPFA/LASAAC Code of Practice on Local Authority Accounting in United Kingdom (the Code of Practice).

In preparing this Statement of Accounts, the Chief Finance Officer has:

- selected suitable accounting policies and applied them consistently;
- made judgements and estimates that were reasonable and prudent;
- complied with the Code of Practice.

The Chief Finance Officer has also:

- kept proper accounting records which were up to date;
- taken reasonable steps for the prevention and detection of fraud and other irregularities.

### Certificate of Chief Finance Officer

I certify that this Statement of Accounts presents a true and fair view of the financial position of Broxbourne Borough Council as at 31 March 2023 and its income and expenditure for the year then ended.

**Sandra Beck FCCA**

Director of Finance

### Approval of the Statement of Accounts

I confirm that the Statement of Accounts was approved by the Audit and Standards Committee at its meeting held on XXX.

**Councillor D Taylor**

Chairman

## Movement in Reserves Statement

This statement shows the movement in the year on the different reserves held by the Council, analysed into 'usable reserves' (those that can be used to fund expenditure) and other reserves.

	Total Revenue Reserves	Capital Grants Unapplied	Capital Receipts Reserve	Total Usable Reserves	Unusable Reserves Restated	Total Reserves
	£000	£000	£000	£000	£000	£000

## Comprehensive Income and Expenditure Statement

This statement shows the accounting cost in the year of providing services, in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation. Local authorities raise taxation to cover expenditure in accordance with regulations; this may be different from the accounting cost. The taxation position is shown in the Movement in Reserves Statement.

		2023/24		2022/23

**Note 1 - Expenditure and Funding Analysis**

The Expenditure and Funding Analysis shows how annual expenditure is used and funded from resources (government grants, rents, council tax and business rates) by the Council in comparison with those resources consumed or earned by the Council in accordance with generally accepted accounting practices. Income and expenditure accounted for under generally accepted accounting practices is presented more fully in the Comprehensive Income and Expenditure Statement.

# Notes to the Core Financial Statements

## Note 2 - Note to the Expenditure and Funding Analysis (continued)

### Adjustments for Capital Purposes

Adjustments for capital purposes - this column includes depreciation and revenue expenditure funded by statute (REFCUS) in the service line, and for:

- Other operating expenditure - adjusts for capital disposals with a transfer of income on disposal of assets and the amounts written off for those assets.
- Taxation and non-specific grant income - adjusts for capital grants received in the year and credited to the Comprehensive Income and Expenditure Statement as they either do not have conditions attached to them or any conditions were satisfied in the year.

### Net Change for the Pensions Adjustments

Net change for the removal of pension contributions and the addition of IAS 19 Employee Benefits pension related expenditure and income:

- For services this represents the removal of the employer pension contributions made by the Council as allowed by statute and the replacement with current service costs and past service costs.
- For financing and investment income and expenditure, the net interest on the defined benefit liability is charged to the Comprehensive Income and Expenditure Statement (CIES).

### Other Statutory Adjustments

Other statutory adjustments between amounts debited or credited to the Comprehensive Income and Expenditure Statement and amounts payable or receivable to be recognised under statute:

- The charge under taxation and non-specific grant income and expenditure represents the difference between what is chargeable under statutory regulations for council tax and non domestic rates that was projected to be received at the start of the year and the income recognised under the Code. This is a timing difference as any difference will be brought forward in future surpluses or deficits on the Collection Fund.

### Other Non-Statutory Adjustments

Other non-statutory adjustments represent amounts debited or credited to service areas which need to be adjusted to comply with the presentational requirements in the Comprehensive Income and Expenditure Statement:

- For financing and investment income and expenditure the other non-statutory adjustments column recognises adjustments for interest income and expenditure and changes in the fair values of investment properties.

# Notes to the Core Financial Statements

## Note 3 - Expenditure and Income Analysed by Nature

The analysis of income and expenditure by department on the face of the Comprehensive Income and Expenditure Statement is that specified by the Service Reporting Code of Practice. However, decisions about resource allocation are taken by the Council's members on the basis of budget reports analysed across departments made up of service areas. These reports are prepared on a different basis from the accounting policies used in the financial statements. In particular:

- Commercial property trading activities are reported within the Finance department;
- Bishops' College Old Building commercial letting is reported within the Finance department;
- The activities of the Broxbourne Sport and Broxbourne Leisure and Culture are treated as a trading operation for management reporting purposes.

The Council's expenditure and income is analysed as follows:

	<b>2023/24</b>	<b>2022/23</b>
	<b>£000</b>	<b>£000</b>
<b>Expenditure</b>		
Employee expenses	14,134	15,414

# Notes to the Core Financial Statements

## Note 5 - Adjustments Between Accounting Basis and Funding Basis Under Regulations

The purpose of this note is to explain the adjustments that are made to the total Comprehensive Income and Expenditure Statement and the funding sources that are allowed by statute as being available to the Council to meet future capital and revenue expenditure. The following sets out a description of the reserves against which the adjustments are made.

### General Fund Balance

The General Fund records all the receipts of the Council out of which the Council's liabilities are paid, except to the extent that statutory rules might provide otherwise. The General Fund balance therefore summarises the resources that the Council is statutorily empowered to spend on its services or on capital investment at the end of the year.

### Capital Grants Unapplied

The Capital Grants Unapplied account holds unused grants and contributions which are intended to be spent on future capital projects, where the Council has met the conditions of the grant or contribution that would otherwise require it to be repaid. The terms of the grants restrict the projects these funds can be used on or the financial year in which the funds can be spent.

### Capital Receipts Reserve

The Capital Receipts Reserve holds the proceeds from the disposal of land or other assets, these are restricted by statute from being used for any purpose other than to fund new capital expenditure. The balance on the reserve shows the amount that has yet to be applied for these purposes at the year end.

	Usable Reserves			Unusable Reserves
	General Fund Balance	Capital Grants Unapplied	Capital Receipts Reserve	
2023/24	£000	£000	£000	£000
<b>Adjustments primarily involving the Capital Adjustment Account:</b>				
<i><u>Reversal of items included in the Comprehensive Income and Expenditure Statement:</u></i>				
Charges for depreciation and impairment of non current assets	(3,123)	-	-	3,123
Revaluation losses on Property Plant and Equipment	-	-	-	-
Movements in the value of investment properties	(11,116)	-	-	11,116
Amortisation of intangible assets	(1,141)	-	-	1,141
Capital grants and contributions applied	7,156	-	-	(7,156)
Revenue expenditure funded from capital under statute	(4,520)	-	-	4,520
Amounts of non current assets written off on disposal or sale as part of the gain/loss on disposal to the Comprehensive Income and Expenditure Statement	(16)	-	-	16
Amounts of non current assets written off on derecognition	-	-	-	-
<i><u>Insertion of items not included in the Comprehensive Income and Expenditure Statement:</u></i>				
Capital expenditure charged against the General Fund balance	1,756	-	-	(1,756)
<b>Adjustments primarily involving the Capital Grants Unapplied Account:</b>				
Capital grants and contributions unapplied credited to the Comprehensive Income and Expenditure Statement	135	(135)	-	-

Community Safety Projects Reserve	55	(469)	496	55
Rental Income Protection Reserve	1,914	-	-	1,914
Collection Fund Reserve	721	-	-	721
S31 Grant Reserve	3,894	-	-	3,894
<b>TOTAL REVENUE RESERVES</b>	<b>24,902</b>	<b>(2,293)</b>	<b>1,957</b>	<b>24,566</b>
<b>Total Earmarked Reserves</b>	<b>28,498</b>	<b>(2,729)</b>	<b>3,792</b>	<b>29,561</b>
<b>Total Movement in Earmarked Reserves in 2021/22</b>				<b>1,063</b>

These reserves are an important way of projecting the Council's current resources into the future and preparing to meet future needs. Their purposes are as follows:

- Capital and Building Works Reserve - used to finance capital works including works to the Council's buildings, as well as purchases of vehicles, plant and equipment.
- Services Reserves - used to finance purchases of vehicles and equipment for Environmental Services, Broxbourne Sport and Broxbourne Leisure and Culture.
- Economic Development Reserve - used to invest in the economic well being of the Borough.
- Personnel Reserve - to provide for potential personnel costs.
- Grave Maintenance Reserve - money received to maintain graves in perpetuity.
- Service Specific Grants Reserve - grants received in advance of expenditure being incurred but which need to be recognised as income in the year they are received.
- Service Protection and Enhancement Fund - to protect and enhance services in future years.
- Housing and Planning Delivery Grant Reserve - to fund future expenditure associated with the Local Plan.
- Performance Reward Grant Reserve - to hold performance reward grant funding for future allocation by the Local Strategic Partnership.
- Repairs and Renewals Fund - to enable accelerated maintenance of revenue generating fixed assets.

# Notes to the Core Financial Statements

## Note 6 - Transfers to/(from) Earmarked Reserves (continued)

- Lottery Grant Reserve - contributions received from the Broxbourne Community Lottery, set aside to fund grant applications from local organisations
- Park Lane Footbridge Reserve - to fund the construction of a footbridge over the railway .
- Brookfield Reserve - to fund the future relocation of the Council's depot and allotments
- Community Safety Project Reserve - to fund community safety initiatives and projects identified by the Council.
- Rental Income Protection Reserve - to be used in the event of a significant drop in the commercial rental income the Council receives.
- Collection Fund Reserve - to be used to smooth the impact of any significant drop in the business rates and council tax income the Council receives.
- s1Grant Reserve—to be used in future years to fund the NDR deficit in the Collection Fund

# Notes to the Core Financial Statements

## Note 10 - Property, Plant and Equipment (continued)

### Capital Commitments

The Council has entered into a number of contracts for the construction or enhancement of Property Plant and Equipment in 2023/24 and future years. The total outstanding commitment on such schemes at 31 March 2024 was £0.9 million. The breakdown of this amount by asset category is shown below. Similar commitments at 31 March 2023 were £0.9 million.

	<b>£000</b>
Operational buildings	516
Plant assets	484
Intangible assets	25
Assets under construction	336
	<u>1,361</u>

# Notes to the Core Financial Statements

## Note 11 - Heritage Assets

Heritage Assets are those assets which are intended to be preserved in trust for future generations because of their cultural, environmental or historic associations. As such, these assets are assumed to have an indefinite life and are therefore not depreciated.

	Art Collections	Statues & Monuments	Civic Regalia	Total
	£000	£000	£000	£000
<b>2023/24</b>				
<b>Cost or Valuation</b>				
At 1 April 2023	<b>200</b>	<b>345</b>	<b>5</b>	<b>550</b>
<b>At 31 March 2024</b>	<b>200</b>	<b>422</b>	<b>5</b>	<b>627</b>
	£000	£000	£000	£000
<b>2022/23</b>				
<b>Cost or Valuation</b>				
At 1 April 2022	<b>200</b>	<b>345</b>	<b>5</b>	<b>550</b>
<b>At 31 March 2023</b>	<b>200</b>	<b>358</b>	<b>5</b>	<b>563</b>

In addition to the statues and monuments included in Heritage Assets, the Council also considers Goffs Oak war memorial, the remains of Cheshunt Great House and moat at Peace Close and the Theobalds Palace ruins at Cedars Park to be Heritage Assets.

Goffs Oak village centre is marked by a War Memorial which was unveiled on 20 December 1920. It is inscribed with the names of 32 men from the village who were killed in the First World War. A further three names were added following the Second World War.

Cheshunt Great House originally consisted of a large late medieval courtyard building with a vaulted undercroft. It is thought that the site was last occupied in 1450 when it was in the possession of Mari de Santo Paulo, Countess of Pembroke. By the end of the 17<sup>th</sup> century the area had become known as the Manor of La Monte and Andrews. The house was destroyed by fire in 1965 and the site now consists of the remains of a moated enclosure and associated overflow ditch with the remains of brick arches abutting the ditch on the eastern side indicating where the bridge once stood.

Theobalds Palace was built in 1563 by Lord Burleigh, Secretary of State, Lord High Treasurer and Master of Requests to Queen Elizabeth I. In 1582, the Palace was extended and the extension enclosed part of Cheshunt common fields invoking a riot by the people of Cheshunt and Northaw parishes which had to be quelled by the Earl of Warwick and a troop of soldiers. In 1607 King James I exchanged Theobalds Palace for Hatfield House. James I died at Theobalds in 1625 and was succeeded by Charles I who spent much of his childhood at Theobalds. After the execution of Charles I, Parliament decided that any possessions of the late King be surveyed, valued and sold. The palace was subsequently surveyed and much of it was taken down and the materials sold and the palace now stands in ruins.

Isabel Christie open space and obelisk contains a Meridian Marker in the form of an obelisk. The practice of marking the position of the Meridian for its amenity value, rather than as an alignment aid for telescopes, probably began at the start of the twentieth century. The land for the park was donated in 1897 by Charles Peter Christie, owner of the Christie Brewery in Hoddesdon who erected the obelisk in memory of his late wife, Isabel Constance Christie.

These are not recognised on the Balance Sheet as cost information is not readily available and due to the unique nature of these assets it is not possible to provide a reliable estimate of their value.

The majority of the Council's other heritage assets are reported on the Balance Sheet at insurance valuation which is based on market values. These insurance valuations are reviewed annually.

# Notes to the Core Financial Statements

## Note 12 - Investment Property

The following items of income and expenditure have been accounted for in the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement:

	<b>2023/24</b>	<b>2022/23</b>
	<b>£000</b>	<b>£000</b>
Rental income from investment property*	10,261	9,778
Direct operating expenses arising from investment property*	(3,413)	(2,690)
<b>Total</b>	<b>6,848</b>	<b>7,088</b>

\* included in 'Trading Operations' in Note 8. See also full analysis of trading operations in Note 25

### Capital Commitments

There are no restrictions on the Council's ability to realise the value of its investment property or on the Council's right to receive income from any proceeds of sale. The Council has no contractual obligations to purchase, construct or develop investment property or repairs, maintenance or enhancement.

The following table summarises the movement in the fair value of investment property over the year:

	<b>2023/24</b>	<b>2022/23</b>
	<b>£000</b>	<b>£000</b>
Balance at 1 April	116,281	116,281
Purchases	65	65
Net (losses)/gains from fair value adjustments	(11,116)	24,178
<b>Balance at 31 March</b>	<b>129,612</b>	<b>140,567</b>

### Fair Value Hierarchy

All the Council's investment properties have been value assessed as Level 2 on the fair value hierarchy for valuation purposes.

### Valuation Techniques Used to Determine Level 2 Values for Investment Property

The fair value of investment property has been measured using a market approach, which takes into account quoted prices for similar assets in active markets, existing lease terms and rentals, research into market evidence including market rentals and yields, the covenant strength for existing tenants and data and market knowledge gained in managing the Council's investment asset portfolio. Market conditions are such that similar properties are actively purchased and sold and the level of observable inputs are significant, leading to the properties being categorised as level 2 on the fair value hierarchy. There has been no change in the valuation techniques used in the year for investment properties.

### Highest and Best Use

In estimating the fair value of the Council's investment properties, the highest and best use is their current use.

### Valuation Process for Investment Properties

The Council's investment properties have been valued as at 31 March 2023 by a combination of the Council's internal valuer and external valuers, NPS and Colliers, in accordance with the methodologies and bases for estimation set out in the professional standards of the Royal Institute of Chartered Surveyors.

# Notes to the Core Financial Statements

## Note 13 - Intangible Assets

The Council accounts for its software as Intangible Assets, if that software is not an integral part of a particular IT system and as such accounted for as part of the hardware item of Property, Plant and Equipment. Intangible assets include both purchased licences and internally developed software.

All software is given a finite useful life, based on assessments of the period that the software is expected to be of use to the Council. The useful lives assigned to the major software suites used by the Council are between 3 and 5 years.

The carrying amount of Intangible Assets is depreciated on a straight line basis. The depreciation of £4,800k charged to revenue in 2022/23 (2021/22 £3,362k ) was mainly charged to the IT administration cost centre and then absorbed as an overhead across all the service headings in the Cost of Services. It is not possible to quantify exactly how much of the depreciation is attributable to each service heading. The movement on intangible asset balances during the year is as follows:

	2023/24	2022/23
	£000	£000
Gross carrying amounts	8,900	8,696
Accumulated depreciation	(5,962)	(4,800)
<b>Net carrying amount at 1 April</b>	<b>2,938</b>	<b>3,896</b>
Purchases	683	204
Depreciation for the period	(1,141)	(1,162)
Disposals	-	-
<b>Net carrying amount at 31 March</b>	<b>2,480</b>	<b>2,938</b>
<b>Comprising:</b>		
Gross carrying amounts	9,583	8,900
Accumulated depreciation	(7,103)	(5,962)
<b>Balance at 31 March</b>	<b>2,480</b>	<b>2,938</b>

## Capital Commitments

The Council has entered into a number of contracts for the replacement, or upgrade, of a number of its software programmes in 2022/23 and future years. The outstanding commitments on such schemes at 31 March 2023 were £0.08 million. Commitments at 31 March 2022 were £0.14 million.

# Notes to the Core Financial Statements

## Note 14 - Financial Instruments

### (a) Categories of Financial Instruments

The following categories of financial instruments are carried in the Balance Sheet:

	Long-Term		Current	
	31 March 2024	31 March 2023	31 March 2024	31 March 2023
	£000	£000	£000	£000
<b>Investments</b>				
Amortised Cost	-	-	42,328	37,201
<b>Total Investments</b>	<b>-</b>	<b>-</b>	<b>42,328</b>	<b>37,201</b>
<b>Debtors</b>				
Amortised Cost	19,076	19,480	16,748	13,254
<b>Total included in Debtors</b>	<b>19,076</b>	<b>19,480</b>	<b>13,254</b>	<b>13,254</b>
<b>Borrowings</b>				
Financial liabilities at amortised cost	-	-	59,314	58,241
<b>Total included in Borrowings</b>	<b>-</b>	<b>-</b>	<b>59,314</b>	<b>58,241</b>
<b>Creditors</b>				
Financial liabilities at amortised cost	-	-	49,837	37,654
<b>Total Creditors</b>	<b>-</b>	<b>-</b>	<b>49,837</b>	<b>37,654</b>

In addition, the Council held four money market funds and a bank deposit account at 31 March 2023. These are defined as short term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and are therefore treated as 'cash equivalents'. For completeness, these are shown, together with the amounts of cash and bank balance, below.

	31 March 2024 £000	31 March 2023 £000
Cash equivalents	18,078	18,051
Cash and bank balances	3,244	1,738
	<b>21,322</b>	<b>19,789</b>

# Notes to the Core Financial Statements

## Note 14 - Financial Instruments (continued)

### (b) Income, Expense, Gains and Losses

	31 March 2024	31 March 2023
	£000	£000
Interest income	1,973	1,973
<b>Total Income in (Surplus)/Deficit on the Provision of Services</b>	<b>1,973</b>	<b>1,973</b>
Interest expense	687	687
<b>Total Expense in (Surplus)/Deficit on the Provision of Services</b>	<b>687</b>	<b>687</b>
<b>Net Gain for the Year</b>	<b>1,286</b>	<b>1,286</b>

### (c) Fair Values of Assets and Liabilities

Financial assets represented by loans and receivables are carried in the Balance Sheet at amortised cost. Their fair value is assessed by calculating the present value of the cash flows that will take place over the remaining term of the instruments, using the following assumptions:

- Where an instrument will mature in the next 12 months, the carrying amount is assumed to be approximate to fair value.
- The fair value of trade and other receivables and payables is taken to be the invoiced or billed amount less appropriate provision made against the risk of less than full payment.
- The fair value of long term investments have been discounted at the market rate for similar instruments with similar remaining terms to maturity on 31 March.

The fair values calculated are as follows:

	31 March 2024		31 March 2023	
	Carrying amount	Fair value	Carrying amount	Fair value
	£000	£000	£000	£000
Short term borrowing	59,314	57,650	58,241	57,650

	31 March 2024		31 March 2023	
	Carrying amount	Fair value	Carrying amount	Fair value
	£000	£000	£000	£000
Short term investments	42,328	42,328	37,201	37,201
Long term debtors	19,076	19,076	19,480	19,480
Short term debtors	16,748	16,748	13,254	13,254

Short term debtors and creditors are carried at cost as this is a fair approximation of their value.

<b>Balance at 31 March 2023</b>	<b>15</b>	<b>54</b>	<b>3,413</b>	<b>3,482</b>

Business ratepayers are entitled to appeal against the rateable value allocated to their property by the Valuation Office Agency (VOA). In the event that an appeal is successful the Council is responsible for repaying its share of the business rate income to the ratepayer. A provision has been included in the Balance Sheet based on the expected outcome of the appeals outstanding with the VOA as at 31 March 2024 as well as an amount for appeals which have not yet been lodged relating to the 2017 revaluation.

Deferred Capital Receipts	2022/24	2022/23

# Notes to the Core Financial Statements

## Note 21 - Unusable Reserves

	31 March 2024	31 March 2023
	£000	£000
Revaluation Reserve	(40,539)	(40,538)
Accumulated Absences Account	162	176
Capital Adjustment Account	(136,318)	(145,792)
Deferred Capital Receipts Reserve	(324)	(334)
Pensions Reserve	(26,515)	(17,311)
Collection Fund Adjustment Account	7,560	5,422
<b>Total Unusable Reserves</b>	<b>(195,974)</b>	<b>(198,733)</b>

### (a) Revaluation Reserve

The Revaluation Reserve records, from April 2007, the accumulated gains on the non current assets held by the Council arising from increases in value, as a result of inflation or other factors. The overall balance on the reserve represents the amount by which the current value of non current assets carried in the Balance Sheet is greater because they are carried at their revalued amount rather than their value at 1 April 2007 or subsequent depreciated historical cost. The reserve is not available to finance either revenue or capital expenditure.

	2023/24	2022/23
	£000	£000
Balance at 1 April	(40,538)	(38,595)
Upward revaluation of assets	-	(1,943)
Difference between fair value depreciation and historical cost depreciation	-	-
Downward revaluation not charged to the Comprehensive Income and Expenditure Statement		
<b>Balance at 31 March</b>	<b>(40,538)</b>	<b>(40,538)</b>

### (b) Accumulated Absences Account

The Accumulated Absences Account shows the difference that would otherwise arise on the General Fund Balance from accruing for untaken leave entitlement at the end of the year. Statutory arrangements require that the impact on the General Fund Balance is removed by transfers to or from this account.

	2023/24	2022/23
	£000	£000
Balance at 1 April	176	79
Settlement or cancellation of accrual made at the end of the preceding year	(176)	(79)
Amounts accrued at the end of the current year	162	176
Amount by which officer remuneration charged to the Comprehensive Income and Expenditure Statement on an accruals basis is different from remuneration chargeable in the year in accordance with statutory requirements	(14)	97
<b>Balance at 31 March</b>	<b>162</b>	<b>176</b>

# Notes to the Core Financial Statements

## Note 21 - Unusable Reserves (continued)

### (c) Capital Adjustment Account

The Capital Adjustment Account accumulates the write down of the historical cost of non current assets as they are consumed by depreciation and impairments or written off on disposal, together with the resources that have been set aside to finance capital expenditure.

	<b>2023/24</b>	<b>2022/23</b>
	<b>£000</b>	<b>£000</b>
Balance at 1 April	(145,792)	(113,536)
<b><i>Reversal of items relating to capital expenditure charged to or credited to the Comprehensive Income and Expenditure Statement:</i></b>		
Charges for depreciation and impairment of non current assets	3,123	2,985
Revaluation losses on property, plant and equipment	-	-
Amortisation of intangible assets	1,141	1,162
Revenue expenditure funded from capital under statute	4,520	1,453
Amounts of non current assets written off on disposal or sale as part of the loss on disposal to the Comprehensive Income and Expenditure Statement	16	11
Amounts of derecognised assets written off	-	-
	8,801	5,611
Adjusting amounts written out of the Revaluation Reserve	11,116	(25,341)
<b><i>Capital financing applied in the year:</i></b>		
Use of the Capital Receipts Reserve to finance new capital expenditure	(1,530)	(2,310)
Capital grants and contributions credited to the Comprehensive Income and Expenditure Statement that have been applied to capital financing	(7,156)	(7,836)
Application of grants to capital financing from the Capital Grants Unapplied account		(115)
Capital expenditure charged against the General Fund balance	(1,756)	(2,265)
	(10,443)	(12,526)
Movements in the market value of investment property charged to or credited to the Comprehensive Income and Expenditure Statement	-	-
<b>Balance at 31 March</b>	<b>(136,319)</b>	<b>(145,792)</b>

### (d) Deferred Capital Receipts Reserve

The Deferred Capital Receipts Reserve holds the gains recognised on the disposal of non-current assets but for which cash settlement has yet to take place. Under statutory arrangements, the Council does not treat these gains as useable for financing new capital expenditure until they are backed by cash receipts. When the deferred cash settlement eventually takes place, amounts are transferred to the Capital Receipts Reserve.

	<b>2023/24</b>	<b>2022/23</b>
	<b>£000</b>	<b>£000</b>
Balance at 1 April	(333)	(344)
Transfer to the Capital Receipts Reserve upon receipt of cash	10	10
<b>Balance at 31 March</b>	<b>(324)</b>	<b>(334)</b>

# Notes to the Core Financial Statements

## Note 21 - Unusable Reserves (continued)

### (e) Pensions Reserve

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for retirement benefits. The Council accounts for future retirement benefits in the Comprehensive Income and Expenditure Statement as they are earned by employees accruing years of service. Liabilities are also updated to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the future pension payments. However, statutory arrangements require benefits earned to be financed as the Council makes employer's contributions to the pension fund.

The debit balance on the Pensions Reserve therefore shows a substantial shortfall in the benefits accrued by past and current employees and the resources the Council has set aside to meet future payments. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid (see also note 32).

	2023/24	2022/23
	£000	£000
Balance at 1 April	(17,311)	9,810
Adjustment to opening balance	(494)	-
Actuarial losses/(gains) on pensions assets and liabilities	(7,889)	(29,981)
Reversal of items relating to retirement benefits charged to or credited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement	(821)	2,860
<b>Balance at 31 March</b>	<b>(26,515)</b>	<b>(17,311)</b>

### (f) Collection Fund Adjustment Account

The Collection Fund Adjustment Account records the difference between the demand on the Collection Fund in the Comprehensive Income and Expenditure Statement and the amount required by regulations to be credited to the

	2023/24	2022/23
	£000	£000

	<b>(5,819)</b>	<b>6,315</b>	<b>495</b>	<b>(4,708)</b>	<b>6,971</b>	<b>2,263</b>
<b>Trading Operations Included in Financing and Investment Income and Expenditure</b>						
Commercial Properties	(10,261)	3,413	(6,848)	(9,778)	2,690	(7,088)
	<b>(10,261)</b>	<b>3,413</b>	<b>(6,848)</b>	<b>(9,778)</b>	<b>2,690</b>	<b>(7,088)</b>
<b>Total Trading Operations</b>	<b>(16,080)</b>	<b>9,727</b>	<b>(6,353)</b>	<b>(14,486)</b>	<b>9,661</b>	<b>(4,825)</b>

Trading operations are incorporated into the Comprehensive Income and Expenditure Statement. They are an integral part of the Council's services to the public (e.g. leisure management). The income and expenditure of Broxbourne Sport and Broxbourne Leisure and Culture is included in the cultural and related services line in the Cost of Services. Only the net surplus achieved by commercial properties is included as Financing and Investment Income and Expenditure (see note 8).

The Broxbourne Sport and Broxbourne Leisure and Culture trading operation runs the Council's two sports centres - Laura Trott and John Warner - as well as other leisure facilities within the Borough such as Cheshunt Park Golf Centre and The Spotlight.

## Note 26 - Members' Allowances

The Council paid the following amounts to members of the Council during the year:

	2022/23	2022/23
	£000	£000
Allowances (including national insurance contributions)	288	274
Expenses	1	2
<b>Balance at 31 March</b>	<b>289</b>	<b>276</b>

# Notes to the Core Financial Statements

## Note 27 - Officers' Remuneration

The Council is required to disclose the remuneration of senior officers whose salary exceeds £50,000. Senior officers are defined as those who are responsible for departments within the Council, report directly to the Chief Executive and form the Corporate Management Team.

	Year	Salary	Expenses, Fees and Allowances	Pension Contribution	Total
	Year	Salary	Expenses, Fees and Allowances	Pension Contribution	Total
Chief Executive	2023/24	141,216	-	31,157	<b>172,372</b>
	2022/23	138,930	-	31,157	<b>170,087</b>
Director of Finance	2023/24	105,225	-	24,965	<b>130,191</b>
	2022/23	110,114	-	24,965	<b>135,079</b>

# Notes to the Core Financial Statements

## Note 30 - Related Parties

The Council is required to disclose material transactions with related parties – bodies or individuals that have the potential to control or influence the Council or to be controlled or influenced by the Council. Disclosure of these transactions allows readers to assess the extent to which the Council might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely with the Council.

The UK Government has effective control over the general operations of the Council – it is responsible for providing the statutory framework within which the Council operates, provides funding in the form of grants and prescribes the terms of many of the transactions the Council has with other parties (e.g. housing benefits). Government grants received during the year are set out in Note 3 - Expenditure and Income Analysed by Nature and Note 29 on Grants.

The Council has two wholly owned and controlled limited companies, Badger BC Investments Ltd and Broxbourne Environmental Services Trading Ltd. During the year the companies boards comprised of five Council Officers. Information concerning these companies is set out in Note 33 on Investments in Companies and Group Relationships. The Council also has a one eighth share in Hertfordshire Building Control Ltd. This company is owned equally by eight Hertfordshire authorities. The Head of Finance sits on the Board of this company.

At the 31 March 2023 Broxbourne Council was owed £1,100,395 by Broxbourne Environmental Services Trading Ltd and £18,100,028 by Badger BC Investments Ltd. It owed £343,720 to Broxbourne Environmental Services Trading Ltd..

Members of the Council have direct control over the Council's financial and operating policies. During 2022/23 the Grants Panel approved grants totalling £65,092 of which £9,346 (£6,019 in 2021/22) was paid to voluntary organisations in which eight members had an interest. In each of these cases, the relevant members did not take part in any discussion or decision relating to the grants.

No other material transactions have been identified for disclosure which are not shown elsewhere in the Statement of Accounts.

## Note 31 - Leases

### The Council as Lessee

#### Operating Leases

The Council uses a number of items of equipment financed under the terms of an operating lease. In addition, the Council rents eight properties. The future minimum lease payments due under non-cancellable leases in future years are:

	2023/24		2022/23	
	Buildings £000	Equipment £000	Buildings £000	Equipment £000
Not later than one year	273	21	437	9
Later than one year and not later than five years	175	38	-	-
Later than five years	47			
	<b>495</b>	<b>59</b>	<b>437</b>	<b>9</b>

The amount charged to the Comprehensive Income and Expenditure Statement during 2023/24 in respect of leases was £741,843 (£601,792 in 2022/23).

# Notes to the Core Financial Statements

## Note 31 - Leases (continued)

### The Council as Lessor

#### Operating Leases

The Council leases out properties under operating leases for the provision of community services, such as sports facilities, community centres and for economic development purposes to provide suitable affordable accommodation for local businesses.

	2023/24	2022/23
	£000	£000
Not later than one year	8,439	11,210
Later than one year and not later than five years	12,846	15,088
Later than five years	45,389	45,598
	<b>66,674</b>	<b>71,896</b>

The minimum lease payments receivable do not include rents that are contingent on events taking place after the lease was entered into, such as adjustments following rent reviews. In 2023/24 no material contingent rents were receivable by the Council.

#### Finance Leases

The Council has leased out land at Woollensbrook, Hoddesdon, for a crematorium and cemetery to Westerleigh PLC, on a finance lease with a remaining term of 92 years.

The Council has a total investment in the lease, made up of the minimum lease payments expected to be received over the remaining term. There is not expected to be any residual value in the land when the lease comes to an end. The minimum lease payments comprise settlement of the long term debtor for the right to the property acquired by the lessee and finance income that will be earned by the Council in future years whilst the debtor remains outstanding. The gross investment is made up of the following amounts:

	2023/24	2022/23
	£000	£000
Finance lease debtor (net present value of minimum lease payments):		
Not later than one year	10	10
Later than one year	362	365
Unearned finance income	573	575
<b>Total</b>	<b>945</b>	<b>950</b>

The gross investment in the lease and the minimum lease payments will be received over the following periods:

	Gross Investment in the Lease		Minimum Lease Payments	
	31 March 2024	31 March 2023	31 March 2024	31 March 2023
	£000	£000	£000	£000
Not later than one year	10	10	10	10
Later than one year and not later than five years	40	40	39	39
Later than five years	850	900	323	326
	<b>900</b>	<b>950</b>	<b>372</b>	<b>375</b>

The minimum lease payments do not include lease payments that are contingent on events taking place after the lease was entered into.

# Notes to the Core Financial Statements

## Note 32 - Defined Benefit Pension Scheme

### Participation in Pension Schemes

As part of the terms and conditions of employment of its officers and other employees, the Council offers retirement benefits. Although these benefits will not actually be payable until employees retire, the Council has a commitment to make the payments that needs to be disclosed at the time that employees earn their future entitlement.

The Council participates in the Local Government Pension Scheme, a funded defined benefit scheme administered by Hertfordshire County Council.

### (a) Transactions Relating to Post Employment Benefits

The costs of retirement benefits are recognised in the Cost of Services when they are earned by employees, rather than when the benefits are eventually paid as pensions.

However, as the charge the Council is required to make against council tax is based on the cash payable in the year, the real cost of retirement benefits is reversed out of the General Fund via the Movement in Reserves Statement. The following transactions have been made in the Comprehensive Income and Expenditure Statement and the General Fund Balance via the Movement in Reserves Statement during the year:

	2023/24	2022/23
	£000	£000
<b>Comprehensive Income and Expenditure Statement</b>		
<i>Service Cost Comprising:</i>		
Current service cost	2,009	4,791
Past service cost	-	-

# Notes to the Core Financial Statements

## Note 32 - Defined Benefit Pension Scheme (continued)

### (d) Basis for Estimating Assets and Liabilities

Liabilities have been assessed on an actuarial basis using the projected unit method to arrive at an estimate of the pensions that will be payable in future years dependent on assumptions about mortality rates, salary levels, etc. The pension fund liabilities have been assessed by Hymans Robertson, an independent firm of actuaries with estimates being based on the latest full valuation of the scheme as at 31 March 2023.

The principal assumptions used in the actuary's calculations are:

	2023/24	2022/23
Mortality assumptions:		
Longevity at 65 for current pensioners:		
Men	21.3 years	21.5 years
Women	24.2 years	24.4 years
Longevity at 65 for future pensioners:		
Men	21.8 years	21.9 years
Women	25.8 years	26.0 years
Rate of inflation	3.2%	3.1%
Rate of increase in salaries	3.25%	3.5%
Rate of increase in pensions	2.75%	3%
Rate for discounting scheme liabilities	4.85%	4.8%

The estimation of the defined benefit obligations is sensitive to the actuarial assumptions set out above. The sensitivity analysis below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period and assumes for each change that the assumption analysed changes while all other assumptions remain constant. The assumptions in longevity, for example, assume that life expectancy increases or decreases for men and women. In practice, this is unlikely to occur, and changes in some assumptions may be interrelated. The estimations in the sensitivity analysis have followed the accounting policies for the scheme, i.e. on an actuarial basis using the projected unit credit method. The methods and types of assumptions used in preparing the sensitivity analysis below did not change from those used in the previous period.

### (e) Local Government Pension Scheme Assets Comprised:

	Increase in Assumption £000	Decrease in Assumption £000
Rate for discounting scheme liabilities (decrease 0.1%)		1,731
1 year increase in member life expectancy	3,910	-
Rate of increase in salaries (increase by 0.1%)	75	-
Rate of increase in pensions (increase by 0.5%)	1,688	-
	<b>5,673</b>	<b>1,642</b>

### (f) Impact on the Council's Cash Flows

The objectives of the scheme are to keep employer's contributions at as constant a rate as possible. Funding levels are monitored on an annual basis.

# Notes to the Core Financial Statements

## Note 33 - Investments in Companies and Group Relationships

The Council holds the following investments in companies. These investments have been considered for inclusion within the Council's group boundary, as explained in the accounting policy (13) for Group Accounts. Group accounts have been prepared consolidating Badger BC Investments Limited and Broxbourne Environmental Services Trading Limited.

Name	Nature of Business	Owned %	Nominal Value
	A wholly owned and controlled limited company that was set up to acquire, develop and refurbish homes to provide rental properties to tenants wishing to live in the private sector, but with the assurance that the accommodation is managed by a responsible landlord.	100%	£1
	A wholly owned and controlled limited company set up to deliver the Council's front-line services of waste and recycling collections, cemetery services, management of parks and open spaces including grounds maintenance, markets, street cleaning and enforcement.	100%	£1

In addition to the above, the Council also has an interest in Hertfordshire Building Control Limited, this company is owned equally by eight Hertfordshire authorities. The Council holds 12.5% of the share capital of £8 and is represented on the board. The Company aims to provide a more flexible and efficient response to building control issues across the County. Control is shared equally among the eight partners and the Company operates out of the offices of Welwyn Hatfield Borough Council.

In 2022/23 the Council's share of profit for the year amounted to £27,230 (2021/22 £8,936). In August 2016 the Council made a loan to the Company of £107k, which is held in Long Term Debtors on the Balance Sheet.

## Note 34 - Assumptions made about the Future and Other Major Sources of Estimation Uncertainty

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported for assets and liabilities as at the balance sheet date and the amounts reported for the revenues and expenses during the year. However, the nature of estimation means that actual outcomes could differ from those estimates. The key judgements and estimation uncertainty that have a significant risk of causing material adjustments to the carrying amounts of assets and liabilities within the next financial year are:

### Pension Liability

Estimation of the net liability to pay pensions depends on a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. A firm of consulting actuaries is engaged to provide the Council with expert advice about the assumptions to be applied.

The effects on the net pensions liability of changes in individual assumptions can be measured. For instance, a 0.1% decrease in the discount rate assumption would result in an increase in the pension liability of £1.7 million. However, the assumptions interact in complex ways. During 2023/24, the Council's actuaries advised that the net pension asset had increased by £9 million to a net asset of £26.5 million as a result of changes in estimates and the updating of assumptions. The pension valuations have been provided amidst the economic uncertainty of high inflation and thus valuations and estimations are subject to a level of future uncertainty.

### Provisions

The Council has made a provision of £54 million for the levy from the scheme administrator of Municipal Mutual Insurance Limited (in Scheme of Arrangement) (MMI). One of the terms of the original scheme was that if the company failed to secure solvent run off then a contribution would be taken from the scheme creditors of which the Council is one. No demands have been made by the administrator during 2023/24.

This provision is taken from an actuarial assessment based on pessimistic assumptions of the funding required by MMI to meet its financial obligations. The Council could be required to make further levy contributions depending on future claims development and MMI's investment return.

The Council holds the liability for refunding ratepayers who have successfully appealed against rateable value of their properties. It is unknown how many of the outstanding appeals will be successful, though estimation techniques have been applied to the outstanding appeals using historic success rate data.

# Notes to the Core Financial Statements

## Note 34 - Assumptions made about the Future and Other Major Sources of Estimation Uncertainty (continued)

The carrying amount of the provision is £7.1m, of which the Council's share of £3.5 m is reflected in the accounts. An increase in the overall success rate by 5% would change the required provision by £0.35m.

### Arrears

At 31 March 2024 the Council had a balance of sundry debtors of £43 million. An allowance for the non collection of debt is made at each year end, based on a combination of how long the debt has been outstanding and previous experience of recovery rates. However, the current economic climate means that there is added uncertainty about both the amount of income that the Council is likely to raise and the likely recovery rates. The wide variety of income sources and the different factors affecting each make it difficult to assess the potential impact of future changes and there may be additional credit risks, potential bad debts and write-offs as a result of COVID-19 and wider economic factors. The total income raised by the Council in 2023/24 from sales, fees and charges and rents was £27 million therefore the impact of a 2% decrease in collection rates would be a loss of income of £0.5 million.

### Property, Plant and Equipment and Investment Properties

Assets are included on the basis of valuations and assessed useful lives determined by the Council's valuer, on the basis of standards of professional practice set out by the Royal Institute of Chartered Surveyors (RICS). The assumptions underlying such valuations (such as market conditions) and the assessment of useful lives are subject to revision and therefore the valuations would also change.

The valuations have been provided amidst the economic uncertainty created as a result of high interest rates and inflation and thus valuations have been reported subject to a Material Valuation Uncertainty clause. The inclusion of the Material Valuation Uncertainty declaration does not mean however, that the valuations can not be relied upon, rather that the declaration has been included to ensure transparency of the fact that, in the current extraordinary circumstances, less certainty can be attached to the valuations that would otherwise be the case. Material uncertainty only applies to leisure and retail assets.

If market conditions are impacted by interest rates, every 5% change in value would be equal to a change in the net assets of the Council of £13 m.

Any change in valuation or useful life of a Property, Plant and Equipment asset would affect the carrying value of the asset on the Balance Sheet and the charge for depreciation or impairment in the Comprehensive Income and Expenditure Statement. It is estimated that the annual depreciation charge for buildings would increase by £0.39 million for every year that useful lives had to be reduced. These changes do not have an impact on the Council's General Fund position as the Council is not required to fund such non cash items from council tax.

### Fair Value Measurements

When the fair values of financial assets and financial liabilities cannot be measured based on quoted prices in active markets (i.e. Level 1 inputs), their fair value is measured using valuation techniques (e.g. quoted prices for similar assets or liabilities in active markets or the discounted cash flow (DCF) model). Where possible, the inputs to these valuation techniques are based on observable data, but where this is not possible judgement is required in establishing fair values. These judgements typically include considerations such as uncertainty and risk. However, changes in the assumptions used could affect the fair value of the Council's assets and liabilities.

Where Level 1 inputs are not available, the Council employs relevant experts to identify the most appropriate valuation techniques to determine fair value (for example for Investment Properties, the Council's chief valuation officer and external valuers).

Information about the valuation techniques and inputs used in determining the fair value of the Council's assets and liabilities is disclosed in note 12.

The Council uses the discounted cash flow (DCF) model to measure fair value of some of its operational properties the Laura Trott Leisure Centre and The Spotlight and Financial Assets (amounts deposited at banks and building societies and amounts lent to other councils). The Council measures the values of its Investment Properties based on fair value market comparables.

Significant changes in any of the unobservable inputs would result in a significantly lower or higher fair value measurement for the investment properties and financial assets.

## Note 35 - Nature and Extent of Risks Arising from Financial Instruments

The Council's activities expose it to a variety of financial risks:

- Credit risk - the possibility that other parties might fail to pay amounts due the Council.
- Liquidity risk - the possibility that the Council might not have funds available to meet its commitments to make payments.

# Notes to the Core Financial Statements

## Note 35 - Nature and Extent of Risks Arising from Financial Instruments (continued)

- Market risk - the possibility that financial loss might arise for the Council as a result of changes in interest rates.

The Council's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the resources available to fund services. Risk management is undertaken by the Finance Department under policies approved by the Council in the Annual Treasury Management Strategy. The Council provides written principles for overall risk management and written policies covering specific areas such as interest rate risk, credit risk and investment of surplus cash are set out in the Treasury Management Policy Statement and Treasury Management Practices.

### Credit risk

Credit risk arises from deposits with banks and financial institutions, as well as credit exposure to the Council's customers. The Council manages credit risk by ensuring that investments are only placed with organisations of high credit quality as set out in the Treasury Management Strategy. These include rated commercial entities, the UK government, other local authorities and organisations without credit ratings, upon which the Council has received independent investment advice.

Recognising that credit ratings are imperfect predictors of default, the Council has regard to other measures including credit default swap entitles and equity prices when selecting commercial entities for investment.

A limit of £5 million is placed on the amount of money that can be invested with a single counterparty (other than the UK government). The Council also sets limits on investments in certain sectors. No more than £18 million in total can be invested for a period longer than one year.

	Amount at 31 March 2023	Historical experience of default	Estimated maximum exposure to default and uncollectability
	£000	%	£000
Customers	5,975	2.62	156

Amounts due by customers at 31 March 2024 and written off during 2023/24 has been used as the basis for the historical experience default percentage.

The Council does not generally extend credit to its customers beyond 14 days. At 31 March 2024, of the total debtor balances for invoiced debt of £5.975 million, the past due amount was £4.714 million, which can be analysed by age as follows:

	31 March 2024	31 March 2023
Customer Debts	£000	£000
Less than three months	684	803
Three months to one year	730	385
More than one year	1,708	1,027
<b>Total</b>	<b>3,122</b>	<b>2,215</b>

### Market risk

#### Liquidity risk

The Council has a comprehensive cash flow management system that seeks to ensure that cash is available as needed. The Council currently has eight short term borrowings from other Local Authorities. Immediately accessible funds are also maintained in call accounts and money market funds within investments. The level of funds to be committed for periods in excess of one year is limited to 50% of the total investment portfolio. There is no significant risk that the Council will be unable to raise finance to meet its commitments under financial instruments.

All trade and other payables are due to be paid in less than one year.

# Notes to the Core Financial Statements

## Note 35 - Nature and Extent of Risks Arising from Financial Instruments (continued)

### Market risk (continued)

Interest rate risk

The Council is exposed to risk in terms of its exposure to interest rate movements on its investments.

A rise in interest rates would have the following effects:

- Investments at variable rates - the interest income credited to the Comprehensive Income and Expenditure Statement will increase.
- Investments at fixed rates - the fair value of the assets will fall.

Changes in interest receivable on variable rate investments will be debited or credited to the Comprehensive Income and Expenditure Statement and impact on the General Fund Balance. Movements in the fair value of fixed rate investments will be reflected in the Movement in Reserves Statement.

As at 31 March 2024 £60 million of the Council's investments had a potential exposure to risk from changes in interest rates.

A +/-1% change in interest rates equates to approximately +/- £600,000 per annum.

As the Council generally has a policy of making a revenue contribution to capital equal to the interest it achieved on its investments, variations in interest rates do not impact on its annual revenue budget.

- Price risk

The Council does not invest in equity shares, other than the wholly owned subsidiaries Badger BC Investments Ltd and Broxbourne Environmental Services Trading Ltd. Where it has an equity share value of £1 in each subsidiary.

- Foreign exchange risk

The Council has no financial assets or liabilities denominated in foreign currencies and therefore has no exposure to loss arising from movements in exchange rates.

## Note 36 - Accounting Standards that have been Issued, but not yet Adopted

The Code of Practice on Local Authority Accounting in the United Kingdom (the Code) requires the disclosure of information relating to the expected impact of an accounting change that will be required by a new standard that has been issued but not yet adopted. This applies to the adoption of the following new or amended standards within the 2022/23 Code:

- Definition of Accounting Estimates: Amendments to IAS 8
- Disclosure of Accounting Policies: Amendments to IAS 1 and IFRS Practice Statement 2
- Deferred Tax related to Assets and Liabilities arising from a Single Transaction: Amendment to IAS 12
- Updating a Reference to the Conceptual Framework: Amendment to IFRS 3

IFRS 16—Leases has a delayed required implementation date of 1 April 2024 and will not impact the 2023/24 Statement of Accounts. The Council is currently assessing the impact IFRS 16 will have and the impact may be material.

## Note 37 - Events After the Balance Sheet Date

These accounts have been authorised for issue on XX by the Director of Finance (Chief Finance Officer). Events taking place after this date are not reflected in the financial statements or notes.

# Notes to the Core Financial Statements

## Note 38 - Accounting Policies

### 1 General Principles

The Council is required to prepare an annual Statement of Accounts by the Accounts and Audit Regulations 2015, in accordance with proper accounting practices. These practices primarily comprise the Code of Practice on Local Authority Accounting in the United Kingdom 2023/24 (The Code), and the Service Reporting Code of Practice 2023/24 (SeRCOP), supported by International Financial Reporting Standards (IFRS).

The accounting convention adopted is principally historical cost, modified by the revaluation of certain categories of non current assets and financial instruments.

### 2 Accruals of Income and Expenditure

Activity is accounted for in the year that it takes place, not simply when cash payments are made or received. In particular:

- Revenue from contracts with service recipients, whether for services or the provision of goods, is recognised when (or as) the goods or services are transferred to the service recipient in accordance with the performance obligations in the contract.
- Supplies are recorded as expenditure when they are consumed – where there is a gap between the date supplies are received and their consumption they are carried as inventories on the Balance Sheet.
- Expenditure in relation to services received (including services provided by employees) are recorded as expenditure when the services are received rather than when payments are made.
- Interest receivable on investments and payable on borrowings is accounted for respectively as income and expenditure on the basis of the effective interest rate of the relevant financial instrument rather than the cash flows fixed or determined by the contract.
- Where revenue and expenditure have been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Where debts may not be settled, the balance of debtors is written down and a charge made to revenue for the income that may not be collected.

### 3 Cash and Cash Equivalents

Cash is represented by cash in hand and 'callable' deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are investments that mature within three months or less from the date of acquisition and that are therefore readily convertible to known amounts of cash with insignificant risk of change in value.

In the Cash Flow Statement, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand.

### 4 Prior Period Adjustments, Changes in Accounting Policies, Estimates and Errors

Prior period adjustments may arise as a result of a change in accounting policy or to correct a material error. Changes in accounting estimates are accounted for in the current and future years affected by the change and do not give rise to a prior period adjustment. Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effects of transactions, other events and conditions on the Council's financial position or financial performance. Where a change is made, it is applied retrospectively (unless otherwise stated) by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied. Any material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

### 5 Charges to Revenue for Non Current Assets

Service revenue accounts, support services and trading accounts are debited with the following amounts to record the cost of holding non current assets during the year:

- Depreciation attributable to the assets used by the relevant service.
- Revaluation and impairment losses on assets used by the service where there are no accumulated gains in the Revaluation Reserve against which the losses can be written off.
- Amortisation of intangible assets attributable to the service.

# Notes to the Core Financial Statements

## Note 38 - Accounting Policies (continued)

The Council is not required to raise council tax to fund depreciation, amortisation, revaluation or impairment losses. These charges are therefore removed from the General Fund Balance, by way of an adjusting transaction within the Capital Adjustment Account in the Movement in Reserves Statement.

### 6 Council Tax and Non-Domestic Rates

The Council, as a billing authority, acts as an agent, collecting council tax and non-domestic rates (NDR) on behalf of Hertfordshire County Council (and the government for NDR) and, as a principal, collecting council tax and NDR for itself. The Council is required, by statute to maintain a separate fund (i.e. the Collection Fund) for the collection and distribution of amounts due in respect of council tax and NDR. Under the legislative framework for the Collection Fund, the Council, Hertfordshire County Council and the government share proportionately the risks and rewards that the amount of council tax and NDR collected could be less or more than predicted.

**Accounting for Council Tax and NDR:** The council tax and NDR income included in the Comprehensive Income and Expenditure Statement is the Council's share of accrued income for the year. However, regulations determine the amount of council tax and NDR that must be included in the Council's General Fund. Therefore, the difference between the income included in the Comprehensive Income and Expenditure Statement and the amount required by regulation to be credited to the Collection Fund Adjustment Account is included as a reconciling item in the Movement in Reserves Statement.

The Balance Sheet includes the Council's share of the end of year balances in respect of council tax and NDR relating to arrears, impairment allowances for doubtful debts, overpayments and prepayments and appeals.

### 7 Employee Benefits

**Benefits Payable During Employment:** Short term employee benefits are those due to be settled within 12 months of the year end. They include such benefits as wages and salaries, paid annual leave, paid sick leave, bonuses and non-monetary benefits for current employees. These benefits are recognised as an expense for services in the year in which employees render service to the Council. An accrual is made for the cost of holiday entitlements earned by employees but not taken before the year end which employees can carry forward into the next financial year. The accrual is charged to the Surplus or Deficit on the Provision of Services, but then reversed out through the Movement in Reserves Statement so that holiday entitlements are charged to revenue in the financial year in which the holiday absence occurs.

**Termination Benefits:** Termination benefits are amounts payable as a result of a decision by the Council to terminate an officer's employment before the normal retirement date or an officer's decision to accept voluntary redundancy. They are charged on an accruals basis to the appropriate service in the Comprehensive Income and Expenditure Statement when the Council is demonstrably committed to the termination of the employment or making an offer to encourage voluntary redundancy. Where termination benefits involve the enhancement of pensions, statutory provisions require the General Fund Balance to be charged with the amount payable by the Council to the pension fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, appropriations are required to and from the Pensions Reserve to remove the notional debits and credits for pension enhancements and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year end.

**Post-Employment Benefits:** Employees of the Council are members of the Local Government Pension Scheme administered by Hertfordshire County Council. This scheme provides defined benefits to members, earned during employment for the Council. This is accounted for as a defined benefits scheme:

- The liabilities of the pension scheme attributable to the Council are included in the Balance Sheet on an actuarial basis using the projected unit method – i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates, etc, and projections of future earnings for current employees.
- Liabilities are discounted to their value at current prices, using a discount rate of 2.0% (2019/20 2.3%) (based on the indicative rate of return on the single average gilt yield plus the mean credit spread on AA corporate bonds).
- The assets of the Hertfordshire County Council pension fund attributable to the Council are included in the Balance Sheet at their fair value:
  - Quoted securities – current bid price
  - Unquoted securities – professional estimate

# Notes to the Core Financial Statements

## Note 38 - Accounting Policies (continued)

- Unitised securities – current bid price
- Property – market value

The change in the net pensions liability is analysed into the following components:

- Service cost comprising:
  - Current service cost – the increase in liabilities as a result of years of service earned this year, allocated in the Comprehensive Income and Expenditure Statement to the services for which the employees worked.
  - Past service cost – the increase in liabilities as a result of a scheme amendment or curtailment whose effect relates to years of service earned in earlier years, debited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement as part of Non Distributed Costs.
  - Net interest on the net defined benefit liability (asset), i.e. net interest expense for the Council - the change during the period in the net defined benefit liability (asset) that arises from the passage of time charged to the Financing and Investment Income line of the Comprehensive Income Statement and Expenditure Statement. This is calculated by applying the discount rate used to measure the defined benefit obligation at the beginning of the period to the net defined benefit liability (asset) at the beginning of the period, taking into account any changes in the net defined benefit liability (asset) during the period as a result of contribution and benefit payments.
- Remeasurements comprising:
  - The return on plan assets - excluding amounts included in net interest on the net defined benefit liability (asset), charged to the Pensions Reserve as Other Comprehensive Income and Expenditure.
  - Actuarial gains and losses – changes in the net pensions liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions, charged to the Pensions Reserve as Other Income and Expenditure.
  - Contributions paid to the Hertfordshire County Council pension fund – cash paid as employer's contributions to the pension fund in settlement of liabilities; not accounted for as an expense.

In relation to retirement benefits, statutory provisions require the General Fund Balance to be charged with the amount payable by the Council to the pension fund or directly to pensioners in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, this means that there are appropriations to and from the Pensions Reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the pension fund and pensioners and any amounts payable to the fund but unpaid at the year end. The negative balance that arises on the Pensions Reserve, thereby measures the beneficial impact to the General Fund of being required to account for retirement benefits on the basis of cash flow rather than as benefits are earned by employees.

**Discretionary Benefits:** The Council also has restricted powers to make discretionary awards of retirement benefits in the event of early retirements. Any liabilities estimated to arise as a result of an award to any member of staff are accrued in the year of the decision to make the award and accounted for using the same policies as are applied to the Local Government Pension Scheme.

## 8 Events after the Balance Sheet Date

Events after the Balance Sheet date are those events, both favourable and unfavourable, that occur between the end of the reporting period and the date when the Statement of Accounts is authorised for issue. Two types of events can be identified:

- Those that provide evidence of conditions that existed at the end of the reporting period – the Statement of Accounts is adjusted to reflect such events.
- Those that are indicative of conditions that arose after the reporting period – the Statement of Accounts is not adjusted to reflect such events, but where a category of events would have a material effect, disclosure is made in the notes of the nature of the events and their estimated financial effect.

Events taking place after the date of authorisation for issue are not reflected in the Statement of Accounts.

## 9 Financial Instruments

Financial Instruments comprise Financial Assets and Financial Liabilities.

# Notes to the Core Financial Statements

## Note 38 - Accounting Policies (continued)

### Financial Liabilities

Financial liabilities are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value and are carried at their amortised cost. Annual charges to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument. The effective rate of interest is the rate that exactly discounts estimated future cash payments over the life of the instrument to the amount at which it was originally recognised.

For the borrowings that the Council has, this means that the amount presented in the Balance Sheet is the outstanding principle repayable (plus accrued interest) and interest charged to the Comprehensive Income and Expenditure Statement is the amount payable for the year according to the loan agreement.

### Financial Assets

Financial assets are classified based on a classification and measurement approach that reflects the business model for holding the financial assets and their cash flow characteristics. There are three main classes of financial assets measured at:

- Amortised cost
- Fair value through profit or loss (FVPL), and
- Fair value through other comprehensive income (FVOCI)

The Council's business model is to hold investments to collect contractual cash flows. Financial assets are therefore classified as amortised cost, except for those whose contractual payments are not solely payments of principal and interest (i.e. where the cash flows do not take the form of a basic debt instrument).

### Financial Assets Measured at Amortised Cost

Financial assets measured at amortised cost are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value. They are subsequently measured at their amortised cost. Annual credits to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement (CIES) for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument. For most of the financial assets held by the Council, this means that the amount presented in the Balance Sheet is the outstanding principal receivable (plus accrued interest) and interest credited to the Comprehensive Income and Expenditure Statement is the amount receivable for the year in the loan agreement.

However, the Council has made an immaterial loan to a voluntary organisation at less than market rate (soft loan). When soft loans are made, a loss is recorded in the Comprehensive Income and Expenditure Statement (debited to the appropriate service) for the present value of the interest that will be foregone over the life of the instrument, resulting in a lower amortised cost than the outstanding principal.

Interest is credited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement at a marginally higher effective rate of interest than the rate receivable from the voluntary organisation, with the difference serving to increase the amortised cost of the loan in the Balance Sheet. Statutory provisions require that the impact the soft loan on the General Fund Balance is the interest receivable for the financial year. The reconciliation of amounts debited and credited to the Comprehensive Income and Expenditure Statement to the net gain required against the General Fund Balance is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movement in Reserves Statement.

Any gains or losses that arise on the derecognition of an asset are credited or debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

Gains and losses on the repurchase or early settlement of borrowing are credited and debited to the Financing and Investment Income line in the Comprehensive Income and Expenditure Statement in the year of repurchase or settlement.

### Expected Credit Loss Model

The Council recognises expected credit losses on all of its financial assets held at amortised cost or where relevant FVOCI, either on a 12 month or lifetime basis. The expected credit loss model also applies to lease receivables and contract assets. Only lifetime losses are recognised for trade receivables (debtors) held by the Council.

# Notes to the Core Financial Statements

## Note 38 - Accounting Policies (continued)

Impairment losses are calculated to reflect the expectation that the future cash flows might not take place because the borrower could default on their obligations. Credit risk plays a crucial part in assessing losses. Where risk has increased significantly since an instrument was initially recognised, losses are assessed on a lifetime basis. Where risk is not increased significantly or remains low, losses are assessed on the basis of 12 month expected losses.

### 10 Government Grants and Contributions

Whether paid on account, by instalments or in arrears, Government grants and third party contributions and donations are recognised as due to the Council when there is reasonable assurance that:

- The Council will comply with the conditions attached to the payments; and
- The grants or contributions will be received.

Amounts recognised as due to the Council are not credited in the Comprehensive Income and Expenditure Statement until conditions attached to the grant or contribution have been satisfied. Conditions are stipulations that specify that the future economic benefits are required to be consumed by the Council as specified, or the grant or contribution must be returned to the transferor.

Monies advanced as grants and contributions for which conditions have not been satisfied are carried on the Balance Sheet as creditors. When conditions are satisfied, the grant or contribution is credited to the relevant service line (attributable revenue grants and contributions) or Taxation and Non Specific Grant Income (non ringfenced revenue grants and all capital grants) in the Comprehensive Income and Expenditure Statement.

Where capital grants are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance in the Movement in Reserves Statement. When the grant has been used to finance capital expenditure, it is credited to the Capital Adjustment Account. Where the grant is yet to be used, it is credited to the Capital Grants Unapplied Reserve. Amounts in this reserve are transferred to the Capital Adjustment Account once they have been applied to fund capital expenditure.

### Business Improvement Districts

A Business Improvement District (BID) was established in Hoddesdon in January 2018, "Love Hoddesdon BID". The scheme is funded by a Business Improvement District levy paid by non-domestic ratepayers. The Council collects the Business Improvement District levy into a ring fenced account. Love Hoddesdon (a not-for-profit company with governance arrangements and Memorandum and Articles of Association) then invoices the Council for the levy amounts on a regular basis.

### 11 Heritage Assets

The Council's Heritage Assets are not only held at the Lowewood Museum but can also be found across the Borough as sites of cultural interest. The museum's collections of Heritage Assets are held in support of the primary objective of the museum, i.e. increasing the knowledge, understanding and appreciation of the history of the Council and local area. Heritage Assets are recognised and measured (including the treatment of revaluation gains and losses) in accordance with the Council's accounting policies on Property, Plant and Equipment. However, some of the measurement rules are relaxed for Heritage Assets as detailed below. The Council's collections of Heritage Assets are accounted for as follows:

**Ceramics, Porcelain Work and Figurines:** The collection of ceramics, porcelain work and figurines includes carved figurines held at the museum. These items are held on the Balance Sheet at insurance valuation, which is based on market values. These assets are deemed to have an indefinite life; hence the Council does not consider it appropriate to charge depreciation. The collection is relatively static and acquisitions and donations are rare. When they do occur, acquisitions are recognised at cost and donations recognised at a valuation ascertained by the museum's curator in accordance with the Council's policy on ceramics, porcelain works and figurines.

**Art Collection:** The art collection includes oil paintings and portraits, held on the Balance Sheet at insurance valuation, which is based on market values. The assets are deemed to have an indefinite life; hence the Council does not consider it appropriate to charge depreciation. Acquisitions are made by purchase or donation. Acquisitions are recognised at cost and donations are recognised at a valuation ascertained by an external valuer with reference to appropriate commercial markets using up to date information from sales at auction.

**General:** The carrying amounts of Heritage Assets are reviewed where there is evidence of impairment, e.g. where an item has suffered physical deterioration or breakage or where doubt arises to its authenticity. Any impairment is recognised and measured in accordance with the Council's policies on impairment.

# Notes to the Core Financial Statements

## Note 38 - Accounting Policies (continued)

### 12 Intangible Assets

Expenditure on non-cash assets that do not have physical substance but are identifiable and controlled by the Council (e.g. software licences) are capitalised when they will bring benefits to the Council for more than one financial year. Intangible assets are carried at amortised cost. The assets are amortised over their useful life with the charge going to the relevant service line in the Comprehensive Income and Expenditure Statement.

Any gain or loss arising on the disposal of an intangible asset is recorded as Other Operating Expenditure in the Comprehensive Income and Expenditure Statement. Where expenditure on intangible assets qualifies as capital expenditure for statutory purposes, amortisation, impairment losses and disposal gains and losses are not permitted to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and (for any sale proceeds greater than £10,000) the Capital Receipts Reserve.

### 13 Interests in Companies and Other Entities

The Council has a two wholly owned subsidiaries, Badger BC Investments Ltd, which has the principal activity of acquiring, developing and refurbishing homes and Broxbourne Environmental Services Trading Ltd which provides services including waste and recycling, street cleaning and grounds maintenance. Both Company's accounts are consolidated into the Council's accounts and the consolidated accounts are included in the Council's Statement of Accounts document. In the Council's own single-entity accounts, the interest in Badger BC Investments Ltd and Broxbourne Environmental Services Trading Ltd are recorded as financial assets at cost, less any provision for losses.

In addition, the Council also has an interest in Hertfordshire Building Control Limited, this company is owned equally by eight Hertfordshire authorities.

### 14 Inventories

Inventories are included on the Balance Sheet at the lower of cost and net realisable value.

### 15 Investment Property

Investment properties are those that are used solely to earn rentals or for capital appreciation. The definition is not met if the property is used in any way to facilitate the delivery of services or is held for sale. Investment properties are measured initially at cost and subsequently at fair value, based on the highest and best use value of the asset from the market participant's perspective. Properties are not depreciated but are revalued annually according to market conditions at the year end. Gains and losses on revaluation are posted to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The same treatment is applied to gains and losses on disposal. Rentals received are credited to the Financing and Investment Income line and result in a gain for the General Fund Balance.

However, revaluation and disposal gains and losses are not permitted by statutory arrangements to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and (for any sales proceeds greater than £10,000) the Capital Receipts Reserve.

**Fair value:** Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement assumes that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability; or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The Council measures the fair value of an asset or liability using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

When measuring the fair value of a non-financial asset, the Council takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Council uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Inputs to the valuation techniques in respect of assets and liabilities for which fair value is measured or disclosed in the Council's financial statements are categorised within the fair value hierarchy, as follows:

# Notes to the Core Financial Statements

## Note 38 - Accounting Policies (continued)

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities that the Council can access at the measurement date

Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3 – unobservable inputs for the asset or liability.

### 16 Leases

Leases are classified as finance leases where the terms of the lease transfer substantially all the risks and rewards incidental to ownership of the property, plant or equipment from the lessor to the lessee. All other leases are classified as operating leases.

Where a lease covers both land and buildings, the land and buildings elements are considered separately for classification. Arrangements that do not have the legal status of a lease but convey a right to use an asset in return for payment are accounted for under this policy where fulfilment of the arrangement is dependent on the use of specific assets.

#### The Council as Lessee

The Council only holds operating leases as a lessee.

**Operating Leases:** Rentals paid under operating leases are charged to the Comprehensive Income and Expenditure Statement as an expense of the services benefiting from the use of the leased property, plant or equipment. Charges are made on a straight line basis over the life of the lease even if this does not match the pattern of payments (e.g. there is a rent free period at the commencement of the lease).

#### The Council as Lessor

**Finance Leases:** Where the Council grants a finance lease over a property or an item of plant or equipment, the relevant asset is written out of the Balance Sheet as a disposal. At the commencement of the lease, the carrying amount of the asset in the Balance Sheet (whether property, plant and equipment or assets held for sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. A gain, representing the Council's net investment in the lease, is credited to the same line in the Comprehensive Income and Expenditure Statement, also as part of the gain or loss on disposal, matched by a lease (long-term debtor) asset in the Balance Sheet.

Lease rentals receivables are apportioned between:

- a charge for the acquisition of the interest in the property - applied to write down the lease debtor (together with any premiums received), and;
- finance income (credited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement).

The gain credited to the Comprehensive Income and Expenditure Statement on disposal is not permitted by statute to increase the General Fund balance and is required to be treated as a capital receipt. Where a premium is received, this is posted out of the General Fund Balance to the Capital Receipts Reserve in the Movement in Reserves Statement. Where the amount due in relation to the lease asset is to be settled by the payment of rentals in future financial years, this is posted out of the General Fund Balance to the Deferred Capital Receipts Reserve in the Movement in Reserves Statement. When future rentals are received, the element for the capital receipt for the disposal of the asset is used to write down the lease debtor. At this point, the deferred capital receipts are transferred to the Capital Receipts Reserve. The written off value of disposals is not a charge against council tax, as the cost of non current assets is fully provided for under separate arrangements for the capital financing. Amounts are therefore appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

**Operating Leases:** Where the Council grants an operating lease over a property or an item of plant or equipment, the asset is retained on the Balance Sheet. Rental income is credited to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Credits are made on a straight line basis over the life of the lease, even if this does not match the pattern of payments (e.g. there is a premium paid at the commencement of the lease). Initial direct costs incurred in negotiating and arranging the lease are added to the carrying amount of the relevant asset and charged as an expense over the lease term on the same basis as rental income.

# Notes to the Core Financial Statements

## Note 38 - Accounting Policies (continued)

### 17 Overheads and Support Services

The costs of overheads and support services are charged to those services that benefit from the supply or service in accordance with the costing principles of the CIPFA Services Reporting Code of Practice 2020/21 (SeRCOP).

The total absorption costing principle is used – the full cost of overheads and support services are shared between users in proportion to the benefits received.

### 18 Property, Plant and Equipment

Assets that have physical substance and are held for use in the provision of services or for administrative purposes on a continuing basis are classified as Property, Plant and Equipment.

**Recognition:** Expenditure on the acquisition, creation or enhancement of Property, Plant and Equipment is capitalised on an accruals basis, provided that it is probable that the future economic benefits associated with the item will flow to the Council and the services that it provides for more than one financial year. Expenditure that secures but does not extend the previously assessed standard of performance of an asset (e.g. repairs and maintenance) is charged to revenue as it is incurred. The Council has selected a de minimis level of £3,000 below which expenditure is not capitalised.

**Measurement:** Assets are initially measured at cost, comprising all expenditure that is directly attributable to bringing the asset into working condition for its intended use.

Assets are then carried on the Balance Sheet using the following measurement bases:

- Infrastructure and assets under construction – depreciated historical cost.
- All other assets – current value, determined as the amount that would be paid for the asset in its existing use (existing use value – EUV).

Where there is no market-based evidence of current value because of the specialist nature of an asset, depreciated replacement cost (DRC) is used as an estimate of current value.

Assets included on the Balance Sheet at current value are revalued sufficiently regularly to ensure that their carrying amount is not materially different from their current value at the year end, but as a minimum every five years. Increases in valuations are matched by credits to the Revaluation Reserve to recognise unrealised gains. Exceptionally, gains might be credited to the Comprehensive Income and Expenditure Statement where they arise from the reversal of an impairment loss due to market price fluctuations previously charged to a service revenue account.

Where decreases in value are identified, they are accounted for in the following way:

- Where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains).
- Where there is no balance on the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service lines in the Comprehensive Income and Expenditure Statement.

The Revaluation Reserve contains only revaluation gains recognised since 1 April 2007, the date of its formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.

**Impairment:** Assets are reviewed at the end of each financial year as to whether there is any indication that an asset may be impaired. Where impairment is identified as part of this review or as a result of a valuation exercise, this is accounted for in the following ways:

- Where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains).
- Where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

Where an impairment loss is subsequently reversed, the reversal is credited to the relevant service lines in the Comprehensive Income and Expenditure Statement up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

**Depreciation:** Depreciation is provided for on all Property, Plant and Equipment with a determinable finite life

# Notes to the Core Financial Statements

## Note 38 - Accounting Policies (continued)

(except for non-depreciable land, certain Community Assets and Assets Under Construction), by allocating the value of the asset on the Balance Sheet over the periods expected to benefit from its use.

Depreciation is calculated on the following basis:

- Dwellings and other buildings – straight line allocation over the useful life of the property as estimated by the valuer.
- Vehicles, plant and equipment – straight line over 3-10 years, as advised by a suitably qualified officer.
- Infrastructure (e.g. footpaths and street furniture) – straight line allocation, up to 5 years.

Where an item of Property, Plant and Equipment has major components the cost of which is significant in relation to the total cost of the item, the components are depreciated separately. Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on their historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

**Disposals and Non Current Assets Held for Sale:** When it becomes probable that the carrying amount of an asset will be recovered principally through a sale transaction rather than through its continuing use, it is reclassified as an Asset Held for Sale. The asset is revalued immediately before reclassification and then carried at the lower of this amount and fair value less costs to sell. Where there is a subsequent decrease to fair value less costs to sell, the loss is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Gains in fair value are recognised only up to the amount of any previously recognised losses in the Surplus or Deficit in Provision of Services. Depreciation is not charged on Assets Held for Sale.

When an asset is disposed of or decommissioned, the value of the asset on the Balance Sheet (whether Property, Plant and Equipment or Assets Held for Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. Receipts from disposals are credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal). Any revaluation gains accumulated for the asset in the Revaluation Reserve are transferred to the Capital Adjustment Account.

The balance of receipts is required to be credited to the Capital Receipts Reserve, and can then only be used for new capital investment or set aside to reduce the Council's underlying need to borrow (the Capital Financing Requirement). Receipts are appropriated to the reserve from the General Fund Balance in the Movement in Reserves Statement.

The written off value of disposals is not a charge against council tax, as the cost of non current assets is fully provided for under separate arrangements for capital financing. Amounts are appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

## 19 Provisions, Contingent Liabilities and Contingent Assets

**Provisions:** Provisions are made where an event has taken place that gives the Council a legal or constructive obligation that probably requires settlement by a transfer of economic benefits and a reliable estimate can be made of the amount of the obligation. For instance, the Council may be involved in a court case that could eventually result in the making of a settlement or the payment of compensation. Provisions are charged as an expense to the appropriate service line in the Comprehensive Income and Expenditure Statement in the year that the Council becomes aware of the obligation and are measured at the best estimate of the likely settlement. When payments are eventually made, they are charged to the provision carried on the Balance Sheet. Estimated settlements are reviewed at the end of each financial year – where it becomes more likely than not that a transfer of economic benefits will not now be required (or a lower settlement than anticipated is made), the provision is reversed and credited back to the relevant service. Where some or all of the payment required to settle a provision is expected to be met by another party (e.g. from an insurance claim), this is only recognised as income in the relevant service if it is virtually certain that reimbursement will be received if the obligation is settled.

**Contingent Liabilities:** A contingent liability arises where an event has taken place that gives the Council a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured reliably. Contingent liabilities are not recognised on the Balance Sheet but disclosed in a note to the accounts.

# Notes to the Core Financial Statements

## Note 38 - Accounting Policies (continued)

### 20 Reserves

The Council sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts out of the General Fund Balance. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service revenue account in that year to be reflected in the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement. The reserve is then transferred back into the General Fund Balance so that there is no net charge against council tax for the expenditure. Certain reserves are kept to manage the accounting processes for non current assets, financial instruments, employee benefits and retirement benefits and do not represent usable resources for the Council – these reserves are explained in the relevant accounting policies and notes to the accounts.

### 21 Revenue Expenditure Funded from Capital under Statute

Expenditure incurred during the year that may be capitalised under statutory provisions but does not result in the creation of a non current asset has been charged as expenditure to the relevant service in the Comprehensive Income and Expenditure Statement in the year. Where the Council has determined to meet the cost of this expenditure from existing capital resources, a transfer in the Movement in Reserves Statement from the General Fund Balance to the Capital Adjustment Account then reverses out the amounts charged so there is no impact on the level of council tax.

### 22 VAT

VAT payable is included as an expense only to the extent that it is not recoverable from Her Majesty's Revenue and Customs. VAT receivable is excluded from income.

### 23 Group Accounts

The boundary for Group Accounts is determined by the extent of the Council's control or influence over an entity, and the materiality of the relationship to users of the Council's accounts. Group Accounts are prepared in accordance with IFRS3, IFRS10 and with IAS27 and the Code, where required and material.

A subsidiary is an entity which the Council controls through the power to govern its financial and operational activities; where it has exposure or rights to variable returns from its involvement in the entity, and where it has the ability to use its power to influence the level of those returns. Control will normally, but not necessarily, be presumed to exist where the Council is the majority shareholder.

A subsidiary is consolidated into Group Accounts by adding like items of income, expense, assets and liabilities, and eliminating transactions and balances between the entities. The extent of these investments is disclosed in the Statement of Accounts in the Investment in Companies note.

## Note 39 - Critical Judgements in Applying Accounting Policies

In applying the accounting policies set out in note 38, the Council has had to make certain judgements about complex transactions or those involving uncertainty about future events. The critical judgements made in the Statement of Accounts concerns the high degree of uncertainty about future levels of funding for local government. However, the Council has determined that this uncertainty is not yet sufficient to provide an indication that the assets of the Council might be impaired as a result of a need to reduce levels of service provision.

# Notes to the Core Financial Statements

## Note 40 - Going Concern

The accounts have been prepared in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom 2023/24 (the Code), which is based upon International Financial Reporting Standards (IFRS), as amended for the UK public sector. The accounts have been prepared on the going concern basis.

To ensure that this basis is appropriate for the going concern period to 30 June 2025, the Council have undertaken forecasting of both income and expenditure, the expected impact on reserves and cashflow forecasting.

The most recent year-end balances, as reported in these statements are as follows :

<b>Date</b>	<b>General Fund</b>	<b>Earmarked Reserves</b>
31/03/2024	£6.2 m	£28.5m

The expected General Fund and Earmarked Reserve position has a predicted balance of £2.4 million and £15.7 million as at 31 March 2025.

The Council's cash flow forecasting and assessment of the adequacy of the liquidity position demonstrates positive cash balances throughout the going concern period, and no expectation of external borrowing other than to support the capital programme which is consistent with plans and normal practice.

The cashflow has forecasted £13.9 million of available cash by the end of June 2025 and £57.7 million of short term borrowing. This short term borrowing will be refinanced during this period.

On this basis, the Council have a reasonable expectation that it will have adequate resources to continue in operational existence throughout the going concern period. Therefore, alongside statutory guidance, the Council will continue to adopt the going concern basis in preparing these financial statements.

# Notes to the Collection Fund

## Note 1 - General

The Collection Fund is an agent's statement that reflects the statutory obligation for billing authorities to maintain a separate Collection Fund. The statement shows the transactions of the billing authority in relation to the collection from taxpayers and distribution to local authorities and the Government, of council tax and non domestic rates.

## Note 2 - Council Tax

This tax is a property tax and assumes that two adults are resident in the property. Discounts are available where less than two adults reside. Properties are placed into one of eight valuation bands.

The base upon which the council tax collected is calculated is the total number of dwellings in each valuation band (adjusted for dwellings where discounts apply) and converted to an equivalent number of band D dwellings. For 2022/23 the numbers were:

Band	Value	Number of chargeable dwellings	Equivalent number of dwellings at Band D (after adjustments)
	£		
A	up to 40,000	549	311
B	40,001 - 52,000	3,728	2,476
C	52,001 - 68,000	9,699	7,705
D	68,001 - 88,000	14,122	13,185
E	88,001 - 120,000	7,604	8,816
F	120,001 - 160,000	2,862	3,963
G	160,001 - 320,000	2,229	3,590
H	over 320,000	220	428
<b>Total</b>		<b>41,013</b>	<b>40,474</b>
	Adjustment for local Council Tax Support scheme		(3,599)
			<b>36,875</b>
	<b>Tax base (assuming 98% collection rate)</b>		<b>36,317</b>

The Council's own council tax charge was calculated as follows:

	£
Net budget for year	8,396,473
less:	
Revenue Support Grant	(63,417)
Retained Business Rates	(3,431,462)
Contribution from the 2022/23 Collection Fund Surplus	636,071
<b>Demand from Collection Fund</b>	<b>5,537,665</b>

The figure of £5,537,665 is divided by the tax base to give a band D tax rate of £153.24 (£148.24 for 2022/23). The average overall band D council tax rate for the Borough, which includes the County Council and police charge is £1,996.87 (£1,900.55 for 2022/23).

# Notes to the Collection Fund

## Note 3 - Income from Business Ratepayers

The Council collects non-domestic rates for its area which are based on local rateable values multiplied by a uniform rate which for 2022/23 was 51.2p (51.2p for 2021/22).

At the year end the total non domestic rateable value was £92 million for 2,342 properties (2,328 at 31 March 2022).

## Note 4 - Precepts and Demands on the Collection Fund

	2023/24 precept/ demand	Share of 31.03.23 surplus/ (deficit)	2022/23 total	2022/23 total
	£000	£000	£000	£000
